

## **MS “4+1” Program for MSE Students Continuing Directly to Graduate School Following Graduation**

This is the third of three MS programs offered in Materials Science and Engineering. The degree is a standard MS from the Graduate School, but with certain constraints as noted below:

### **The Applicant:**

- Is an enrolled MSE undergraduate and must continue directly to the Graduate Program without interruption as a Masters of Science student.
- Has a 3.0 GPA or better.
- Must apply to the Graduate School for Admission and submit GRE scores.

### **The admitted student:**

- Is not eligible to receive TA, GA, or fellowship support.
- Must be a full time student and complete the MS requirements in one year.
- Must present a paper at the end of their studies, but is not expected to present a thesis.
- Cannot transition to a Type A MS without readmission to the program.
